

Aslockton Cranmers Football Club – Environment Policy

Aslockton Cranmers Football Club is committed to minimising the impact of the club on the local environment.

This commitment means Aslockton Cranmers FC will

- Ensure we are aware of our legal obligations and act appropriately in this regard
- Where possible make use of environmentally friendly building materials during building work
- Only using equipment, manufactures and contractors that conform to BS 14001
- Ensure all waste created in general use of the facilities is disposed of appropriately
- Endeavour to ensure all consumable items create as little non-recyclable waste as possible
- Where feasible install energy efficient fittings and appliances
- Constantly review this policy and make improvements where appropriate
- Use only environmentally friendly materials and substances in the upkeep of the facilities
- Encourage feedback from the local community to help improve implementation of this policy
- Take appropriate action to ensure that all energy consuming appliances are used appropriately and where possible
